Agenda item 44d Planning Correspondence

Knockin Parish council
Parish Clerk

Dear Penny

I am writing to ask that the Parish council Discuss and urge the council planning team to deal with buildings With no planning permissions

By [REDACTED], of Paddock lodge, Kinnerley road, Oswestry.

This was started at the beginning of lockdown And has been continuous resulting in another Holiday Chalet and construction of [a roadway](#) directly on the bank adjacent to the public footpath that runs behind Paddock lodge connecting the new building to the original site. The new Chalet can be seen clearly from the footpath.

The first applications to build holiday chalets was very strongly contested, with sound and just reasons So how is this new building being allowed to happen there is no planning permission at all.

As predicted in the original objections the noise and General disturbance from the chalets to surrounding neighbours and villagers has been on many occasions during the day and into early hours of the morning unacceptable.

How can it be that someone can think themselves to be above the law and in all possibility get away with it. This new Chalet will only add to this.

It makes a mockery of any laws put in place and anyone with room to to build could just build what they wanted.

Again I ask you please can you help in this matter.

Under data protection I ask that my name be kept out of this until such time the council write to me formally and I can raise all my concerns

Yours sincerely
