Subject: CSW

Penny

Mark Moth has sent me your details in relation to community speed watch in Knockin. I have just completed a data collection in the area and the results show the 85%ile speed is too high for us to operate CSW in Knockin. This area will need to remain an enforcement site and our camera vans will look to prosecute offenders for speeding at this location.

I am waiting for further results in this area, depending on the results we may well be able to set up a group in the adjacent villages. I will keep you updated on the results.

Kind Regards
Mark
